Professional Summary

Dedicated and creative web developer passionate about crafting dynamic and visually appealing websites.

Skilled in front-end and back-end development with a proven track record of designing user-friendly interfaces.

Beginner-level experience in machine learning and artificial intelligence, eager to apply these skills to enhance website functionality and user experience.

Experienced in collaborating with interior designing companies to translate their vision into functional and attractive websites.

Possess a keen eye for detail and a commitment to excellence, consistently delivering high-quality results that exceed expectations.

I led a team of 6 members for the Smart Indian Hackathon.

I worked as backend A. I. developer and circuit designing.

Experience

Work For a Company Website, Web Developer. Klyani, West Bengal
Jan. 2024 – Mar. 2024

Designed and developed a dynamic website for an interior designing company, showcasing a portfolio of projects and services. Implemented a user-friendly interface with a focus on aesthetics and functionality, resulting in improved client engagement and brand visibility.

Work for College Department, JIS College. Kalyani, WEST BENGAL
October. 2023 – November. 2023

- I am a student of this college
- got the web dev experience by developing the Departmental Website. In this project I played the 'Project leader' Role. I have learnt how to make responsive websites. And some Backend work.
